ONE OF THE  
WORLD'S  
SMALLEST  
CURTAIN PIR  
DETECTORS!

**29MM DIAMETER  
OR 47MM WITH  
THE INCLUDED  
ADAPTOR PLATE!**

### INTRODUCING THE NEMESIS CAMO CURTAIN PIR.

Inconspicuous by nature, the CAMO is one of the smallest PIR detectors in the world and lives up to its name by blending seamlessly into any ceiling. In its smallest form without the included adaptor plate, the CAMO is just 29mm in diameter and protrudes 1.5mm from the ceiling when installed. You'll hardly know it's there! With a snap-fit body and one-click connectors, installation is quick and easy into a 22mm hole. The beam coverage is up to a massive 2.8 x 1m spread and your customers will have complete peace of mind knowing that CAMO comes with a 2 year warranty.

So stop destroying your customers' homes and offices with outdated PIRs; the CAMO Curtain is the first in a huge range of Nemesis products to come...

**BE READY!**

The CAMO is available now! Order yours through Rival SP today! [rivalsp.com.au](http://rivalsp.com.au)
